

Who Moved the Stone?

Join us this Lent as we prepare for Easter with a forensic “examination” of the Resurrection as we focus on Jesus’ tombstone. Dr. Anthony Horvath, founder and executive director of Athanatos Christian Ministries, will provide evidence for the Christian belief in the Resurrection as well as strengthening and equipping Christians to speak boldly about their faith.

Dr. Horvath is also a former President and Vice President of Wisconsin Lutherans for Life; he currently serves as advisor to their board. A second session will feature “Tracking the Culture of Death,” which will show how eugenics, euthanasia, abortion, etc., have manifested throughout history and present themselves today.

Learn more about Dr. Horvath’s organization at
www.athanatosministries.org

Each session will feature a Question and Answer period.

This educational event is free to all.

Saturday, March 18, 2017

St. Martin Lutheran Church
717 Memorial Drive
Chilton, WI
